- [Requesting Leave](#)

Logging and Tracking Your Times

1. StratXE allows you to log and track the time users have spent on particular tasks and projects. To begin login times, click on the "Individual" module.

2. On the "Individual" page, click on "Time" to open up the users timesheet.

3. Click "Create" to add a new entry. Starts off by selecting the date for the new times

entry.

The screenshot shows the 'Times' management page in the stratXo application. The left sidebar contains navigation links for Home, Modules (Strategy, Structure, Performance, Individual, Projects, Stakeholders), and Management (Dashboard, Reports, Approvals). The main header displays the user's name 'Musina Makhado Special Ec...' and a 'Setup' button. The page title is 'Times' with a subtitle 'Project expenses & times, and leave management'. Below the title are tabs for 'Expenses', 'Times', and 'Leave'. The 'Times' tab is active. The form includes a date selector set to 'May 2023' and a project selector set to 'All Projects'. A 'Create' button is located at the top right. The table below has columns for Date, Project, Type, Time, and Description. The first row shows '1 (Mon)' in the Date column, which is highlighted with a red circle. The Project column is empty, the Type is 'Overtime', and the Time is '8 : 0'. A 'Save' button is at the bottom right of the table.

Date	Project	Type	Time	Description
1 (Mon)		Overtime	8 : 0	

4. Select the project the times being logged where dedicated to.

This screenshot shows the same 'Times' management page, but the 'Project' dropdown menu is now open, showing 'MMSEZ Corporate' as the selected option, which is highlighted with a red circle. The rest of the interface remains the same as in the previous screenshot.

Date	Project	Type	Time	Description
1 (Mon)	MMSEZ Corporate	Overtime	8 : 0	

5. Select the type to classify what type of time is being logged, usually this would be either Regular or Overtime.

Project	Type	Time	Descrip
MMSEZ Corporate	Regular	8 : 0	

- Use the description field to give details about the tasks undertaken during the logged time.

Requesting Leave

1. StratXE allows user to request for leave, which can then be approved by the relevant line manager. In order for a user to request leave, from the Individual module page, click on "Leave".

The screenshot shows the StratXE user interface. On the left is a dark sidebar with the StratXE logo and a list of navigation items. The main header area displays the user's name 'Musina Makhado Special Ec...' and the module title 'Times' with a subtitle 'Project expenses & times, and leave management'. Below this are three tabs: 'Expenses', 'Times', and 'Leave', with 'Leave' highlighted by a red rectangle. The 'Leave' section includes filters for 'May', '2023', and 'All Projects'. Below the filters is a table with columns: Date, Project, Type, Time, and Description. The table shows data for 'WEEK 1' starting on '1 (Mon)' for the 'MMSEZ Corporate' project, with a 'Regular' type and a time of '8 : 0'. The description for this entry is 'Auditing'.

Date	Project	Type	Time	Description
WEEK 1			8:00	
1 (Mon)	MMSEZ Corporate	Regular	8 : 0	Auditing

2. In the Leave window, click on "Request".

3. In the dialogue box that appears, fill in the relevant details about the leave request. You can give a brief description about the nature of the leave required, and attach any supporting documents. Click "Request" to save and submit the leave request.

4. In the Individual page, under Leave, Line managers will see any pending leave requests that need approval. To begin review of leave requests, line managers will click "Process" next to the request.

5. The line manager will be able to review all the details submitted when the employee requested leave. Should the Line manager approve the leave, an email will be sent to the user notifying them of the approval. If the line manager declines the leave request, they will be required to submit feedback regarding why the leave was declined.
